

## INTRODUCING a New Training Program for Clinical & Translational Scientists

*Hosted by the Institute for Translational Medicine  
and  
Loyola University Chicago*

### Is I-Corps@NCATS a good fit for you?

- ✓ **Target Learner:** Faculty, clinicians, staff and students with health and biomedical innovations or early-stage ideas, interested in learning more about the process of **customer discovery**
- ✓ **Case Studies:** [Fostering Innovation at Academic Medical Centers: The Case of University of Colorado Anschutz Medical Campus](#)  
[Designing for Dissemination and Sustainability to Promote Equitable Impacts on Health](#)
- ✓ **Have a Team Or An Idea?**
  - ✓ 2-3 people, should have **at least 1 person** commit to attending ALL sessions.
  - ✓ Traditional drug, diagnostic, device, mHealth, digital health innovation
  - ✓ T3-T4 teams (to implement, scale, sustain an intervention or program)
- ✓ **Time Commitment?** Able to commit to 4 weeks of learning.
- ✓ **National faculty help prepare & support you for success!** *Lead Instructor-David Charron, NSF I-Corps & NIH I-Corps*
